PROFESSIONAL SUMMARY

I'm a Full-Stack Developer with 10+ years of experience specializing in PHP-based full-stack development and IT solutions. Expert in the end-to-end lifecycle of web systems and process automation. Currently expanding technical proficiency into Java, Kotlin, and Python to bring multi-language versatility to enterprise-level digital transformation projects.

CORE SKILLS

- **Frontend** — HTML, CSS, JavaScript, Bootstrap, React, Tailwind CSS, Vite, Jetpack Compose
- **Backend** — PHP, Laravel, Java, Spring Boot, Thymeleaf, Kotlin, Python, Flask, WordPress, C#
- **Database** — MariaDB, MySQL, PostgreSQL, MSSQL, SAP Crystal Reports
- **DevOps & Cloud** — AWS Cloud, cPanel, GitHub, Android Console, Maven, Gradle, Railway
- **AI Tools** — Google AI Studio, Gemini, Copilot, Claude
- **Design & Multimedia** — Figma, Adobe Photoshop, Adobe Illustrator, Canva, yEd

WORK EXPERIENCES

IT Solutions Specialist (Freelance)

Sea Beaconer Marine Services OPC — September 2025 to Present

- Modernizing the company website and connected systems using combinations of PHP + Laravel + Python + React into a scalable full-stack web application, improving mobile accessibility and reducing vulnerabilities through enhanced security protocols.
- Rebuilding reviewer apps using Kotlin tech stacks and clean architecture, replacing the legacy Java/XML codebase for a better performance, and a refreshing look.
- Developing digital e-book platforms as a replacement for printed materials, providing an immersive reading and review experience for their students.

Full-Stack Developer

Elosoft, Inc. — November 2022 to September 2025

- Delivered full-stack enhancements for enterprise systems (TERP, ERP, MOBILE, Timekeeping, and client-specific platforms), resolving bugs and boosting performance, resulting in smoother operations for clients.
- Engineered a new version of COMPRE exam system, enabling automated student performance monitoring and statistical analysis for academic insights.
- Revamped client websites to improve responsiveness, visual appeal, and functionality, enhancing brand presence and user experience; and created 20 reusable HTML/CSS Grid templates, later leveraged to build mock-up websites and dynamic systems for three prospective clients.
- Strengthened Android development skills with Kotlin, supporting LMS projects for maritime students and expanding mobile learning capabilities.

IT Solutions Specialist

SBR Marine Services Corporation — March 2019 to January 2023

- Led end-to-end development of mobile reviewer apps, from design and QA testing to deployment and maintenance, achieving successful publication on Google Play Store.
- Deployed a web-based Enrollment Platform and Reviewer Extension that streamlined enrollment processes, improving efficiency by 90%; and ensured business continuity during pandemic lockdowns, independently managing virtual client assistance and enrollment processing for 500+ reviewees.

- Re-engineered the Review Management System, enhancing security, efficiency, and features, expanding accessibility from office-only use to online deployment.
- Produced digital assets such as posters, infographics, videos, and 200+ UI/UX or review help images for mobile reviewer apps to strengthen brand visibility and support marketing campaigns.

Full-Stack Web Developer

IP-Optix Technologies, Inc. — September 2014 to March 2019

- Redesigned and rebuilt the company's dynamic website twice, modernizing UI/UX and improving client engagement.
- Developed ERP applications (HRIS with biometric integration, Payroll, Accounting, Inventory) and an online Voting System, streamlining operations and reducing manual workload.
- Directed design, QA testing, and cross-platform development of a mobile app using Ionic and PhoneGap, expanding company service offerings.
- Created promotional and branding materials (posters, infographics, brochures, logos, IDs); and supported IT infrastructure projects including network hub rehabilitation, cable wiring, and biometric/IP camera installations.

Graphic Designer (Intern)

Diliman Interactive Learning Center, University of the Philippines — November 2013 to March 2014

- Collaborated on 6 mobile app icon designs and multimedia projects; designed 7 infographics, pamphlets, and brochures, supporting educational initiatives; and explored Android programming, creating a simple calculator app and a 3D trailer using Adobe Premiere, demonstrating adaptability and technical curiosity.

Researcher (Part-Time)

Crystal Sugar Company, Inc. — April 2013 to May 2013

- Conducted 100+ employee interviews, achieving the highest engagement count during the project to assess job alignment and compensation fairness; and compiled statistical and summary reports, providing actionable insights to support HR decision-making and organizational transparency.

CERTIFICATIONS & PROFESSIONAL TRAINING

AWS Cloud Quest: Cloud Practitioner

Amazon Web Services (AWS) Training and Certification

Earned during SIL at Spring Valley Tech Corp. — May 2026

Credly Badge: https://www.credly.com/badges/c90bafc2-7558-4b8a-b3ce-efefebe7d2a8/public_url

Java Programming NC III

Technical Education and Skills Development Authority (TESDA)

Center for International Industries Competence Corp. (CIICC) — December 2025 to May 2026

Independent Study: Android Development with Kotlin

Google Developers Training Curriculum — January 2025 to Present

Full-Stack Web Development Training Program

Village88, Inc. — July 2022 to October 2022

Python Programming Training Program (Level 1 & 2)

Department of Information and Communication Technology (DICT MACH) — June 2022

FORMAL EDUCATION

Bachelor of Science in Information Technology (BSIT)

Polytechnic University of the Philippines (PUP QC) — SY 2014
